

COLOUR FUN!

N G
V

A colour wheel is a helpful tool for artists to use when mixing paints.

See colourful paintings by Mark Rothko and Grace Crowley at ngv.melbourne/collection

What colours can you find?

Get the facts

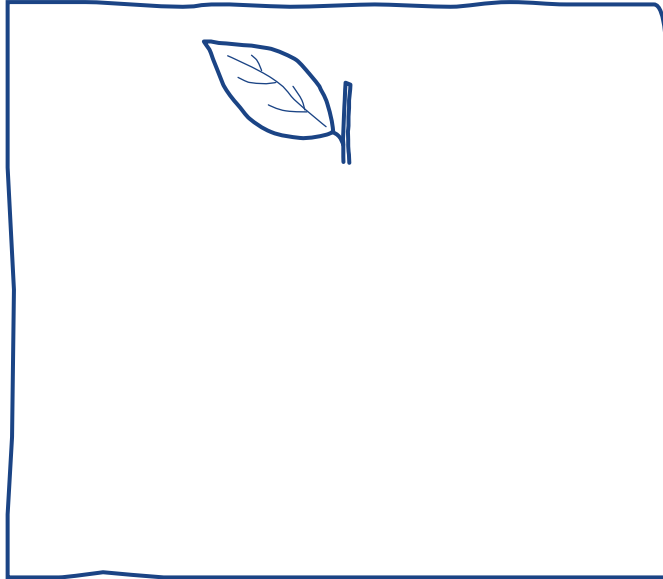

- 1 Red, blue and yellow are primary colours.
- 2 When two primary colours are mixed together, they make a new colour called a secondary colour. Green, orange and purple are all secondary colours.

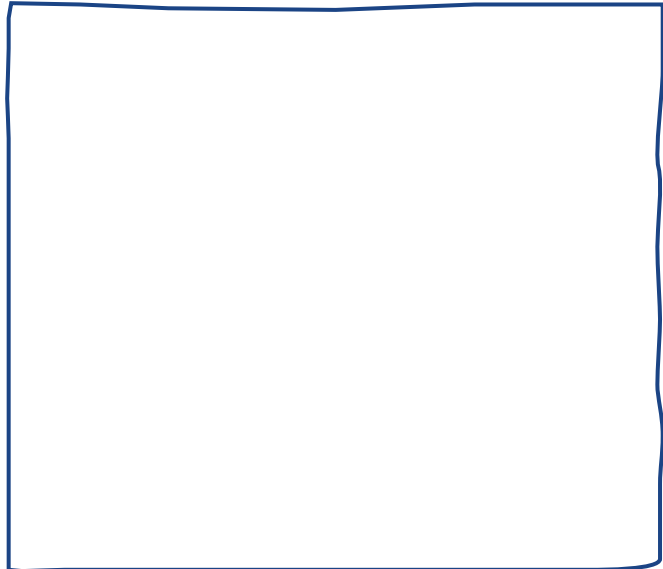

MIX IT UP!

Mix colours and draw the answers to the riddles.

What colour do you make by mixing red and yellow? I am a round fruit and the name of a colour.

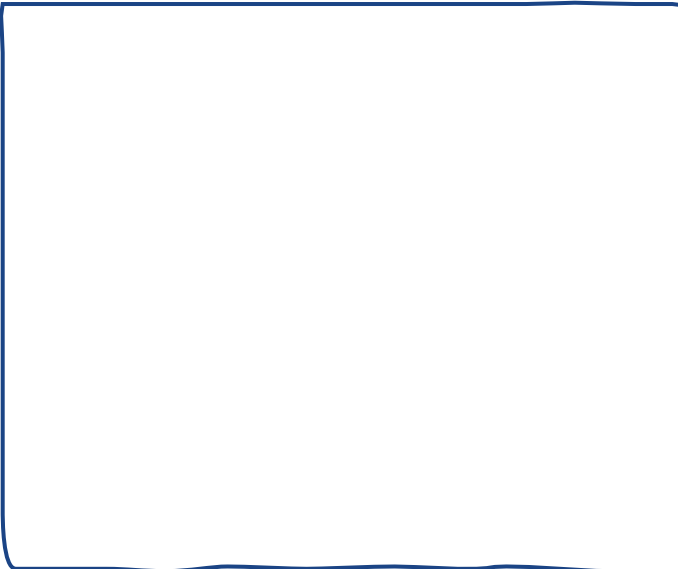

What colour do you make when you mix yellow and blue? I am an amphibian and I can hop!

Mix red and white to make this colour. I am made of sugar and you might eat me at a school fete.

Mix red and blue together to make this colour. I am a vegetable – I am an egg and a plant!

Add white to a colour to make it lighter.

Add black to make colours darker!

Try this

Hunt through the house and find coloured objects to make a colour wheel.

Share your creations by using hashtag #NGVEveryDay and tag @ngvmelbourne to be featured.
